About the Club

The Economic Club of New York is a membership organization with members drawn from the top executive levels of business, industry and finance. Founded in 1907, the Club serves as a major forum for discussion on a wide range of public issues of interest to business people.

The Club is nonpolitical, nonpartisan and nonprofit. Its membership (individual, not corporate) is drawn primarily from the senior leadership ranks of the business and financial communities and the associated professions. Its individual members represent a wide diversity of opinion.

The Club promotes no agenda, and it takes no sides on issues. It exists solely to provide a serious, structured forum in which selected top leaders, from both the U.S. and abroad, can address its members and their invited guests. Because its speakers have complete freedom to express their views, the Club is described as the leading non-partisan forum in the United States. All views expressed at Club functions are those of the speakers, not of the Club.

Speakers are chosen for distinction and timeliness. Over the years speakers have included heads of government, cabinet ministers, legislators, economists, bankers, corporate executives, labor leaders, university presidents, governors, judges, generals and admirals, ambassadors and scientists.

Our breakfasts, lunches and occasional dinners are informative and enriching exchanges with world class and highly influential thought leaders from various sectors of the economy. The format is designed for serious discussion. We have no entertainment, no presentations, and conduct no extraneous business. The program itself is uninterrupted and the event's entire focus is on the Guest of Honor and the speaking program.

Programs include a question period, either where questions are asked by members of the Club who are seated on the dais, or are questioned in a fireside chat format.

Club programs are open to members and their guests. Members are encouraged to invite guests and many find that hosting tables provides a unique opportunity for their clients. Club events are open to coverage by the press.

The Centennial Society, available to those in the Club who are elected into Membership, is a second tier of giving that reflects our most generous members. Special benefits of joining the Centennial Society vary by giving level but include Priority seating for Members and their guests, as well as the ability to bring a guest to the VIP reception, special receptions for Centennial Members, and much more.

Joining The Centennial Society

The Centennial Society and the Centennial Fund were created more than a decade ago by the ECNY Board of Trustees to provide the Club financial security during its second century and to ensure continued high quality programs for its membership. The Fund is directed by the Board and all expenditures from the Fund, whether from income and/or principal, must be authorized by the Board. Today, there are more than 260 members in the Centennial Society. Gifts to the Fund have enabled the Club to further its important mission of providing diverse and timely programs with prominent thought leaders who share ideas across virtually every aspect of the national and global economy.

We are pleased to share that there are now three levels of giving that a Club member may select to support the Centennial Fund and each is fully tax deductible. As always, company matches are welcome. Each level and the associated member benefits are outlined below:
